

Ultimate Metal Cure

CR-VI Converter

Protect Your Business and the Environment

Ultimate Metal Cure effectively combats Chromium-6 dust that arises during maintenance and overhaul work, ensuring a safe work environment.

Versatile and Effective

- **Protect Your Team:** Converts dangerous Chromium-6 into safe Chromium-3.
- **Environmentally Friendly:** Fully biodegradable and sustainable.
- **User-Friendly:** No complicated application, ready to use immediately.

Safety and Efficiency in One Drop

Discover with Ultimate Metal Cure the advanced solution to one of the metal industry's most pressing issues – converting carcinogenic Chromium-6 into harmless Chromium-3. Our innovative product not only protects against the dangers of Chromium-6 but also supports your company in complying with strict safety regulations and preserving the health of your employees.

Ideal for use in demanding environments like:

- Combined Heat
- Power Plants
- Ship Engines
- Diesel Engines
- Gas Turbines

Contact us today to learn more about Ultimate Metal Cure and how we can support your company. Take the first step towards a safer and more environmentally friendly work environment.
